

PORT CONSTRUCTION AND REPAIR

TABLE OF CONTENTS

	Page
PREFACE	vii
Purpose and Scope	vii
General Port Construction	vii
Cargo in Containers	vii
User Information	vii
CHAPTER 1. MISSIONS AND RESPONSIBILITIES	1-1
Section I. GENERAL	1-1
FM 100-10 Responsibilities	1-1
TASCOM Assistant Chief of Staff, Movements	1-1
Engineer Responsibilities	1-1
Transportation Responsibilities	1-2
Section II. WATERFRONT UTILITIES	1-2
Water	1-2
Electricity	1-2
Fire Protection	1-3
Bulk Petroleum	1-3
Section III. LOGISTICS-OVER-THE-SHORE (LOTS) OPERATIONS	1-4
General	1-4
Responsibilities	1-4

DISTRIBUTION RESTRICTION: Approved for public release; distribution is unlimited.

* This publication supersedes TM 5-360, 1 September 1964.

CHAPTER 2 HARBOR STUDIES AND SURVEYS 2-1

 Importance of Historical Information 2-1

 Engineering Design 2-1

 Responsibility for Hydrographic Surveys 2-1

 Hydrographic Survey Methods 2-1

 Methods of Sweeping to Locate Obstructions 2-3

 Methods of Bottom Investigation 2-3

 Tides and Tidal Currents 2-4

 Tidal Prism 2-5

 Waves 2-5

 Wave Energy and Action 2-6

CHAPTER 3 PORT PLANNING 3-1

 Factors Influencing Seaport Locations 3-1

 Planning Prior to Occupation 3-1

 Standards for Estimation 3-2

 Port-Capacity Factors 3-2

 Determination of Wharf Requirements 3-3

 Quay Systems 3-3

 Square-Pier System 3-5

 Offshore Marginal Wharf System 3-5

 Pier-and-Slip System 3-6

 Angled Pier-and-Slip System 3-7

 Finger-Pier System 3-7

 Accessory Structures 3-8

CHAPTER 4 CONSTRUCTION PLANNING AND ORGANIZATION 4-1

 Purpose 4-1

 Capabilities of Construction Forces 4-1

 Floating Plant and Special Equipment 4-2

 Class IV Supplies 4-3

 Availability of Local Materials 4-3

 Availability of Local Labor 4-3

 Construction Planning 4-4

 Phases of Reconstruction 4-5

 Clearing Underwater Mines and Obstructions 4-7

 Inspection of Damage and Deterioration 4-7

 Replacement and Maintenance 4-8

 Rehabilitation of Locks and Breakwaters 4-8

CHAPTER 5 BREAKWATERS, ANCHORAGES, AND MOORINGS 5-1

 Background 5-1

 Section I. BREAKWATERS 5-2

Section II. WAVE-RESISTANT WALLS	5-5
Bulkheads	5-5
Revetments	5-7
Groins	5-7
Jetties	5-10
Seawalls	5-11
Design Requirements for Shore Protection	5-13
Maintenance and Repair	5-13
Section III. ANCHORAGE	5-13
Two Types of Anchorage	5-13
Harbor Depth	5-14
Onshore Mooring Anchors	5-14
Rock-Fill Timber Cribs	5-15
Section IV. LANDING RAMPS	5-16
CHAPTER 6 WHARF LOCATION AND LAYOUT	6-1
Section I. LOCATION	6-1
Currents and Silting	6-1
Suitable Water Depths	6-1
Onshore Topography	6-2
Rail and Road Connections	6-2
Open and Covered Storage	6-2
Expansion Provisions	6-3
Civilian Labor	6-3
Section II. LAYOUT	6-3
Lengths, Widths, and Water Depths	6-3
Distance from Shore to Water of Adequate Depth	6-4
Section III. METHODS OF LOCATION	6-5
Bulkhead and Pierhead Limit Lines	6-5
Effects of Structures on Currents and Silting	6-6
Transparent Templates and Terrain Models	6-6
Work-hours, Materials, and Equipment	6-6
Scheduling of Construction and Expansion Phases	6-7
Section IV. DIMENSIONS AND APPROACHES	6-8
Minimum Lengths, Widths, and Aprons	6-8
Width of Slips	6-8
Width of Approaches to Offshore Wharves	6-9
Approach Flares to Marginal Wharves	6-9
Approaches to Single-Length, Break-Bulk Cargo Wharves	6-9
Approaches to Multiple-Length Wharves	6-9

CHAPTER 7	EARTH-FILL WHARF STRUCTURES	7-1
	General	7-1
	Moles and Breakwaters	7-1
	Masonry Quay Walls	7-2
	Sheet Pile Bulkhead	7-2
	Earth Fill for Quays	7-4
	Base and Surface for Quays	7-5
CHAPTER 8	PILE WHARVES	8-1
	Section I. BEARING PILES	8-1
	Purpose	8-1
	Types	8-1
	Sheet Piles	8-5
	Marine Borers	8-7
	Pile Capacity	8-10
	Pile Bents	8-11
	Section II. TIMBER PILE WHARVES	8-13
	Advantages and Disadvantages	8-13
	Standard Plans	8-13
	Stringer Layouts for Approach Flares	8-14
	Section III. STEEL AND CONCRETE PILE WHARVES	8-15
	Military and Commercial Uses	8-15
	Future Uses	8-16
	Section IV. CONSTRUCTION OF PILE WHARVES	8-17
	Straightening, Cutting, Capping, and Bracing Piles	8-17
	Layout for Positioning Piles	8-20
	Pile-Driving Procedures	8-21
	Erection of Stringers and Deck for Steel Pile Wharves	8-23
	Concrete Surface for Timber Decks	8-24
	Concrete Pile Wharves with Reinforced Concrete Decks	8-26
	Installation of Stringers and Deck for Timber Pile Wharves	8-27
	Erection of Fender Systems	8-28
	Installation and Bracing of Dock Hardware	8-30
	Pile Clusters	8-31
CHAPTER 9	WHARF HARDWARE, FENDERS, AND DOLPHINS	9-1
	Types and Uses of Wharf Hardware	9-1
	Installation of Wharf Hardware	9-3
	Fender Piles and Chocks	9-4
	Pile Clusters and Corner Fenders	9-5
	Floating Log Fenders (Camels)	9-7
	Pile Mooring Dolphins	9-7

CHAPTER 10 FLOATING WHARVES 10-1

 Section I. ARMY EQUIPMENT (CURRENT TO&E) 10-1

 Aluminum Pneumatic Floating Bridge (M4T6) 10-1

 Pneumatic Floating Steel (Superstructure) Bridge (Class 60) 10-3

 Floating Bridge (M4) 10-3

 Section II. NAVY EQUIPMENT 10-5

 P-Series pontoons 10-5

 Uses for P-Series pontoons 10-7

CHAPTER 11 SELF-ELEVATING BARGE PIERS 11-1

 Section I. DELONG BARGES 11-1

 Background 11-1

 Types 11-1

 Site Selection for DeLong Barge Units 11-5

 Past Uses of DeLong Barges in Military Cargo Handling 11-7

 Limits of DeLong Barges Used in Container-Port Construction 11-8

 Section II. FENDERS FOR BARGE UNITS 11-8

 Purpose of Fendering 11-8

 Fender Design 11-8

 Forces from Winds and Currents 11-9

 Recommended Techniques for Fender Design 11-10

 Section III. SHORE CONNECTIONS 11-10

CHAPTER 12 EXPEDIENT CONSTRUCTION 12-1

 General 12-1

 Expedient Construction Equipment 12-1

 Expedient Piers or Causeways 12-1

 Expedient Repair Concepts for Pile Foundations 12-2

 Repair Concepts for Pile-Support Structures 12-5

 Trusses 12-8

 Bracing and Connecting Methods 12-8

 Expedient Repair Concepts for Pier and Wharf Decking 12-14

 Expedient Marine Railway Construction 12-18

 Marine Lifts 12-18

APPENDIX A EXPEDIENT CONSTRUCTION DETAILS A-1

APPENDIX B	DREDGING	B-1
	Purpose	B-1
	Types of Dredging	B-1
	Dredging Operations	B-1
	Dredging Resources	B-2
	Obtaining Dredging Support	B-2
APPENDIX C	DIVING	C-1
	Section I. GENERAL	C-1
	Purpose	C-1
	Engineer Diving Support Concepts	C-1
	Diving Support Request Procedures	C-3
	Communication Zone	C-4
	Section II. ENGINEER DIVING FORCE ORGANIZATION	C-4
	General	C-4
	Control and Support Diving Team	C-4
	Lightweight Diving Team	C-5
	Section III. DIVING MISSIONS	C-5
	Occupation Activities	C-6
	Port Construction	C-7
	Physical Security Operations	C-7
	Port Repair	C-7
	Graves Registration	C-8
	Section IV. CLEARANCE AND SALVAGE OPERATIONS	C-8
	General	C-8
	Clearance Operations	C-9
	Salvage Operations	C-9
	Section V. LOGISTICS	C-10
	General	C-10
	Combat Support	C-10
	Combat Service Support	C-10
	Equipment Support	C-11
	Section VI. LIMITATIONS	C-12
	Environmental	C-12
	Operational	C-12
